Book Descriptions:

7 day digital timer model em0101 manual

The clock will flash 1200 after its reset. Press the clock button several times to select the day of the week. Then hold down on the clock button third button on top right and then twist the dial clockwise to set the hours, then counterclockwise to set minutes. If you only use one timer, make sure the other 5 don't have anything in them. Login to post I want to set for a week to come on and off at the same time each day. It looks pretty simple to do what you want. In Timer mode press the Day button until you see MOSU There are 7 general things to look for if digital timer is not working correctly. 1 0155671 timer is considered incandescent light bulb timer tungsten and not necessarily made for motors loads, TVs, CFLs etc. Try using timer on table lamp with incandescent bulb. Turn lamp ON, and make sure bulb is good. 2 Outlet is wired wrong test outlet with circuit analyzer, and try timer on another outlet, and with different load. For example if outlet polarity is reversed, or if load has interference. 3 Timer is programmed for ON times but not for OFF times. 4 Programming has conflicts, for example program1 ON is for 8am Mon but program1 OFF is for 11am alldaysofweek. Or program1 and program2 ONandOFF times conflict. 5 Timer is not set in AUTO mode, and timer is in random or countdown mode. 6 Timer is defective 68% of all timers arrive defective. 7 If timer is older, the internal battery may be fading. Battery is not replaceable. These timers have 1 year limited warranty. Intermatic manuals They show HB77R raintight. This model may be close enough to figure out button sequence. I work with timers and most programming follows similar pattern. Older timers usually follow same pattern as new timers, except with fewer options. Its 2 full pages with display diagram. The timer is connected to the holocean 90 Watt lightbulbs. Whats causing the timer to stop working It is unclear. 3 Buy cheap circuit analyzer at home center and check circuit. <http://rusскиivopros.com/images/FCKeditor/c24-console-manual.xml>

- **7 day digital timer model em0101 manual, 7 day digital timer model em0101 instructions, 7 day digital timer model em0101 manual, 7 day digital timer model em0101 manual, 7 day digital timer model em0101 manual.**

Whenever electronic timers fail, circuit is suspect. The light fixture may be causing interference. Try timer on different circuit. Try timer on different load. 4 Use mechanical timer instead of digital timer Add a comment for more free help. Also take advantage of fixya phone service. For a price, expert speaks with you over phone while you work on timer or any doityourself project. Fixya is always less expensive than a service call. I want to set for a week to come on and off at the same time each day. It currently is in default mode at 1 second. Answer questions, earn points and help others. Login to post Say also if this is new timer or older timer that stopped working so we are not guessing. Try resetting timer using reset steps shown in manual, and then reprogram. Buy another timer. Gene h If you need further help, I'm available over the phone at This timer shows 7 days of the week. The nighttime hours are white with blue background. Daytime hours are blue with white background. Timer dial rotates clockwise, and make 1 revolution each week. To set timer, manually rotate dial until current day and hour line up with time now pointer. Move slide switch to TIMER ON. Timer randomly turns on/off at preset times. To watch timer in action turn lamp ON, plug lamp into timer, plug timer into outlet, and then manually rotate dial clockwise several rotations and watch lamp turn on/off. Links to other water timer manufactures and manuals are found on following link Open the manual. Plug timer in for 1 hour to charge internal battery. Unplug timer to program. Manual gives steps for setting current time. So if clock on your wall says 942 pm, set timer for 942 pm. Next you begin programming. Manual says press PROG button until display shows 1 and on This is program1 on. Set the hour, minute, using Hour and MIN buttons for program1 on. Press day button to select

days. In your case, keep pressing Day button until all days of week display. <http://i-physiology.ru/upload/c230-owners-manual.xml>

For example Mo TU We Th Fr Sa Su would be all days of week. Next you press PROG button until display shows 1 and off This is program1 off Set hour, minute, and day you want for program1 off. Again you would press Day button until all days display. After setting program1 on and off times, press Prog button again to validate choice, then press clock button. You do not have to set more programs. Timer also has random and countdown functions explained in manual, do not use these unless you want. If manual is confusing, write down the steps, or add a comment. Add a comment for more free help. Also take advantage of fixya expert assistance live. For a price, expert works with you while you work on timer or any doityourself project. Fixya is always less expensive than a service call. DayTimer Mwave Tx12626x Timex Electronic 7 Day Several companies sell a similar timer, and there is a manual for Westek version. Add a comment if this manual is correct for the Timex also. Add a comment for more free help. Also take advantage of fixya phone service. For a price, expert speaks with you over phone while you work on timer or any doityourself project. Fixya is always less expensive than a service call. Add a comment any time. 6 button 7day Generic 6 button Week Noma timers are one of the names used for Woods timers. You posted under 6button outdoor timer. Here is a link to 6 button outdoor Woods timer, to help identify your timer. If this is not your timer, scroll through page to identify timer. Manuals are posted with each timer, add a comment with specific timer number if you want me to write out steps from the manual once you identify the timer. 6 button outdoor 7day timer 6 button outdoor Week timer Intermatic page EI600 manual For a price, expert works with you while you work on timer or any doityourself project. Fixya is always less expensive than a service call. It currently is in default mode at 1 second. Answer questions, earn points and help others.
