CAUTION AVIS RISK OF ELECTRICAL SHOCK RISQUE DE CHOC ELECTRIQUE DO NOT OPEN NE PAS OUVRIR ATTENTION AFIN DE REDUIRE LE RISQUE DE CHOC ELECTRIQUE, CAUTION TO REDUCE THE RISK OF ELECTRIC SHOCK, NE PAS RETIRER LE CAPOT DE L'APPAREIL ou son panneau You can place the cube speaker arrays near a TV screen with no picture interference. Place the front cube speaker arrays on either side of your TV, at least 6 feet 2m, or as much as 15 feet 5m apart see Figure 2. Rear cube speaker arrays The rear, or surround cube speakerCAUTION Never use broken or frayed wiring, which can result in electrical shock or damage to your system. The supplied cables are not intended for inwall installation. Check local building codes or enlist a qualified installer. Connecting front cube speaker Press the terminal tab on the back of the cube speaker array. Release the tab to secure the wires. 2. Connect the wire pair marked RIGHT to the right front cube speaker array to the right of the TV as you face it. 3. Connect the wire pair marked LEFT to the left The wire pairs of the cable may be separated or "unzipped" as much as needed to comfortably reach the surround receiver connections. Each wire pair is marked on the cable jacket with RIGHT, LEFT, CENTER, RIGHT SURROUND, LEFT Incorrect wiring can result in a total loss of module output. Correct wiring problems before you plug your receiver This is normal operation and indicates that power input may be exceeding safe levels. Sustained listening at these levels is not recommended. Adjust Before you play a DVD disc, be sure to select the digital output in the setup menu of your DVD player. For additional setup and operating information, please refer to the owner's guide that came with your surround receiver. Figure 7 NTSC To contact Bose directly, refer to the list of service offices and phone numbers enclosed in the shipping carton. Also, do not use any solvents, chemicals, or cleaning solutions containing alcohol, ammonia, or abrasives.

The grille assemblies on the cube arrays may be carefully vacuumed, if necessary. Please note that the drivers are located directly behind the grille cloth, and are easily damaged. Please fill out the information section on the card and mail it to Bose. To get started finding Bose Acoustimass 15 Manual Download, you are right to find our website which has a comprehensive collection of manuals listed. Our library is the biggest of these that have literally hundreds of thousands of different products represented. I get my most wanted eBook Many thanks If there is a survey it only takes 5 minutes, try any survey which works for you. You want to find out what symbols indicate that a member is private. Obviously, there are a range of different ways a individual's privacy can be invaded without their knowledge, which is only because they have changed their address in their membership application form and they do not understand the address on their application form has been altered. The information that you would like to become from a whois search is the name and address of the person that has applied to your domain name. The entire tool is not a free tool, and this is why it isn't free to use. This is why most of the people don't know how to use the tool, and this is where you will be lost if you don't know what symbols signify that a member is private. You need to be familiar with symbols that indicate that a individual is personal, and these will be those that you will be looking for. A full diagram will inform you that the individual who owns the domain is a member. Now, there are different symbols which you can look for. For example, the dot in the middle of the title tells you that whoever owns the domain is not a member.

So, you'll need to take all of these symbols into account prior to making a decision about whether or not the person is a member. Next, you'll have to understand what kinds of symbols are all available once you would like to find out who a individual is. You will find the two sorts of symbols when you use the type of lookup tools available, and you will find them. These kinds of symbols signify that a individual is an individual, and they'll let you know if they're private, public, or even unknown. The public symbol means that the person who owns the domain is a member. When you find the public emblem, it lets you know that the person is currently active. It also lets you know that they are an active member of the domain name. The personal symbol means that the man who owns the domain is not a member. Additionally, it tells you that the individual is currently inactive rather than part of the active user population. It does not signify that the individual is a part in a personal domain. Please be discreet. They could be your neighbors or someone you know. Do you agree to keep the identity of these women a secret? The women have requested that we not let those younger than 18 contact them because of past rude behavior by younger men. Again, please keep their identity a secret.
