Reload to refresh your session. The new Color imageRUNNER C5185 will be the first imageRUNNER models to support new features that will also be available on several blackandwhite and Color imageRUNNER devices moving forward. Some of these features include Workflow Composer, which allows users to register one key for all document processes within an entire workflow or task, IPv6 and Microsoft Vista support, and Access Management System, which gives administrators greater control over device access at the user and grouplevel. Sporting Canons TwinBelt Fusing Technology, this device provides users with fast print speeds and warmup times, helping to address companies needs for greater output in less time The Color imageRUNNER C5185i model is powered by Canons evolutionary imageCHIP system architecture. It not only enables simultaneous copying, printing, scanning, sending and faxing, it also delivers output at speeds of up to 51 pages per minute letter in both black and white and brilliant color. With Canons TwinBelt Fusing Technology fast print speeds and warm up times are achieved. And at true 1200 dpi, every word will appear with absolute clarity with the highly precise fourbeam laser scanner. The Color imageRUNNER model is designed to make you more productive with an easytoread full color touch panel, interactive help menus and more useful documentation and tutorials.

Remote tools enable you to monitor and perform operations on the device from any computer on the network. Supports a host of Internetready capabilities, including the optional Web Access Software that allows users to call up Internet or intranet data right on the userinterface, and print Web Pages and downloadable PDF files when configured with the Canon print controller. The Webbased Distributed Authoring and Versioning WebDAV protocol, enables you to securely send documents to a shared storage service over the Internet. The Universal Send PDF Security Feature Set standard provides advanced options to help prevent impersonation, unauthorized alteration, or interception of your documents. With Digital Device Signature mode, recipients can be assured of the originating device of documents. You can also protect the contents of your documents with the Encrypted PDF feature, and secure them with a password to restrict access, editing, and printing. The Digital User Signature option enables verification of your identity to recipients by adding your digital certificate to your documents. Significantly reduce large file sizes associated with color files by utilizing Canons proprietary PDF High Compression technology. Color Universal Send offers powerful options to master creation, distribution, and archiving of your documents. That means the Color imageRUNNER device is a true MFP right out of the box, ready to produce volumes of general business documents. The Color imageRUNNER model ships with a standard 100sheet Document Feeder, standard automatic duplexing, and paper capacity of 1,200 sheets that can be upgraded to support a maximum capacity of 5,000 sheets through six sources. The system also supports a wide variety of media including heavy paper, labels and transparencies.
